

# Cluster Hire for Multiple Associate/Full Professors in Space Science & Technology

The University of Texas at San Antonio (UTSA) is a Tier One research university and a Hispanic Serving Institution with more than 35,000 students, located in the 7th largest city in the United States. UTSA also has a joint space science graduate program with Southwest Research Institute (SwRI), a nationally recognized leader in space science and technology. As part of a \$40M strategic investment, we invite applications for tenured Associate or Full Professors to contribute to a Space Science & Technology cluster hiring initiative with a preferred start date in Fall 2025.

Five positions are open this year related to space research, including:

- Satellites and space-based instrumentation
- Space access, space propulsion, & space mobility
- Materials for extreme space environments
- Space-based manufacturing
- Human performance in space

**Apply Here**

Review of applications will begin on November 11, 2024 and will continue until the position is filled. Priority will be given to applications received by November 10, 2024. **Interested candidates can apply [here](#).**
